

Cheshire West & Chester Council

# Review of Services for Disabled Children and Young People

(including physical and learning disabilities)  
aged between 0-25 years old

You are invited to an event to give your views on the effectiveness of the services listed below and how they could operate in a more joined up way without losing the specialist support that is needed:

- Disabled Access to Resources Team (DART) - in-house short break provision
- Pinewood - Overnight Short Break Unit
- Commissioned short break provision
- Children with Disabilities Team in Children Social Care
- Transition Team for Disabled Young People Social Care

Families have been invited separately to attend a series of listening events across the borough to have the opportunity to talk face-to-face with senior members of Council staff and to give their view on our services – attached is a copy of their invitation with venue choices.

We also know that those delivering services are well placed to tell us where and how improvements can be made as well as identifying the barriers that get in the way of making those improvements.

As someone who delivers services for disabled children and young people, your attendance and views are important to us to help shape our formal consultation which will take place in Spring 2016.

## Professionals, Third Sector and Commissioned Services

Tell us how  
we can  
improve our  
services
