

Coverage of Year 2 objectives 2019/2020

Y2	Objective	Working towards (pupil initials)	Expected (no. of pupils)	Greater depth (pupil initials)
Number and Place Value	Count in steps of 2, 3, and 5 from 0, and in tens from any number, forward and backward			
	Recognise the place value of each digit in a two-digit number (tens, ones)			
	Identify, represent and estimate numbers using different representations, including the number line			
	Compare and order numbers from 0 up to 100; use <, > and = signs			
	Read and write numbers to at least 100 in numerals and in words			
	Use place value and number facts to solve problems.			
Number – Addition & Subtraction	Solve problems with addition and subtraction: <ul style="list-style-type: none"> ▪ using concrete objects and pictorial representations, including those involving numbers, quantities and measures ▪ applying their increasing knowledge of mental and written methods 			
	Recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100			
	Add and subtract numbers using concrete objects, pictorial representations, and mentally, including: a two-digit number and ones a two-digit number and tens two two-digit numbers adding three one-digit numbers			
	Show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot			
	Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.			
Number - Multiplication & Division	recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers			
	calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (×), division (÷) and equals (=) signs			
	show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot			
	solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts.			
Number - Fractions	Recognise, find, name and write fractions $\frac{1}{3}$, $\frac{1}{4}$, $\frac{2}{4}$ and $\frac{3}{4}$ of a length, shape, set of objects or quantity			
	Write simple fractions for example, $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of $\frac{2}{4}$ and $\frac{1}{2}$.			
Measurement	Choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels			

	Compare and order lengths, mass, volume/capacity and record the results using $>$, $<$ and $=$			
	Recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value			
	Find different combinations of coins that equal the same amounts of money			
	Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change			
	Compare and sequence intervals of time			
	Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times			
	Know the number of minutes in an hour and the number of hours in a day.			
Geometry – Properties of shapes	Identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line			
	Identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces			
	Identify 2-D shapes on the surface of 3-D shapes [for example, a circle on a cylinder and a triangle on a pyramid]			
	Compare and sort common 2-D and 3-D shapes and everyday objects.			
Geometry – position & direction	Order and arrange combinations of mathematical objects in patterns and sequence			
	Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise).			
Statistics	Interpret and construct simple pictograms, tally charts, block diagrams and simple tables			
	Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity			
	Ask and answer questions about totalling and comparing categorical data.
